

Section 4: Commentaries and Letters to the Editor

Section Overview

This section lists Commentaries and Letters to the Editor related to USMLE Step 1 and Step 2 CK (Clinical Knowledge) score uses and interpretations. They are from 2010 to 2018, although the majority of them are from the last three years. We include this list to acknowledge the perspectives of individuals impacted by Step 1 and Step 2 CK score uses and interpretations, and to provide examples of the types of conversations in which they are engaged.
